

## Impulseline WLP Shower

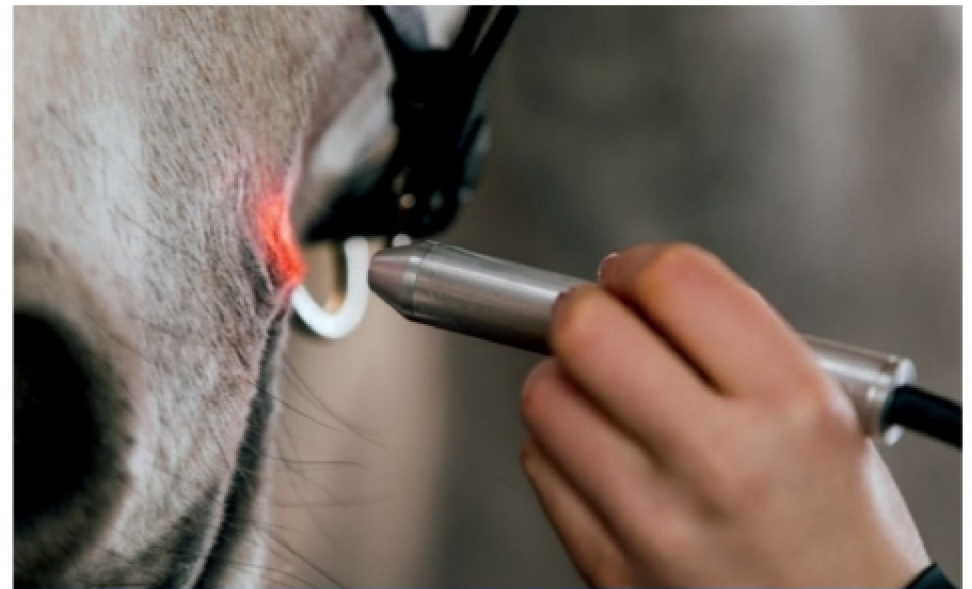

The wave light pulse technology combines light therapy with magnetic field therapy. The WLP System combines pulsed magnetic field and massage with our wave light pulse technology. Intensity and frequency can be adjusted parallel to WLP.

The LED-based WLP technology contributes energy for faster healing.

## Impulseline WLP Pointer

The Impulseline WLP Pointer combines wave light-pulse LED technology combined with pulsed magnetic field technology. This WLP system allows for precise treatment of individual body parts and is often used as an alternative to acupuncture.
